

Rabbit anti-Human GCDFP-15, clone EP1582Y (Monoclonal)

Clone no. EP1582Y

MONOSAN

Product name	Rabbit anti-Human GCDFP-15, clone EP1582Y (Monoclonal)
Host	Rabbit
Applications	IHC-P (1:100-1:500)
Species reactivity	human
Conjugate	-
Immunogen	Unknown or proprietary to MONOSAN and/or its suppliers
Isotype	IgG
Clonality	Monoclonal
Clone number	EP1582Y
Size	1 ml
Concentration	n/a
Format	-
Storage buffer	Tris Buffer, pH 7.3-7.7, containing 1% BSA and <0.1% Sodium Azide
Storage until expiry date	2-8°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Rabbit anti-Human GCDFP-15, clone EP1582Y (Monoclonal)

Clone no. EP1582Y

MONOSAN

Additional info

GCDFP-15 is a glycoprotein localized in the apocrine metaplastic epithelium lining breast cysts and in apocrine glands in the axilla, vulva, eyelid, ear canal, and in salivary glands. GCDFP-15 positivity is seen in breast carcinomas. On the other hand, colorectal carcinomas, lung carcinoma, mesotheliomas rarely stain with this antibody. Because of its specificity for breast carcinoma, this antibody is often helpful in distinguishing metastasis of unknown primary.
