Mouse anti-MMP-9, clone 2C3 (Monoclonal)

Clone no. 2C3

MONOSAN

Additional info

This monoclonal antibody binds to human MMP-9. Reactivity in other species has not been determined. The 12-mer peptide used for the immunization differs on 4 or 5 amino acids with the sequence of MMP-9 of rat, mouse, and rabbit. Therefore it is not expected to be effective in these species as well. The antibody was tested for cross-reactivity with MMP-1, MMP-2, and MMP-3 and did not cross-react.
