

Product datasheet PS263

**MONOSAN**<sup>®</sup>

Polyclonal Rabbit anti-Rat CCK-A receptor

Clone no. -

MONOSAN

---

|                           |   |
|---------------------------|---|
| Product name              | Polyclonal Rabbit anti-Rat CCK-A receptor                                     |
| Host                      | Rabbit  |
| Applications              | IHC-fr (1:1,500-1:2,500)  |
| Species reactivity        | Mouse, Rat  |
| Conjugate                 | -   |
| Immunogen                 | Synthetic peptide from the C-terminus of rat CCK-A receptor conjugated to BSA |
| Isotype                   | -   |
| Clonality                 | Polyclonal  |
| Clone number              | -   |
| Size                      | 50 µl   |
| Concentration             | n/a   |
| Format                    | -   |
| Storage buffer            | Lyophilized; reconstitute in 100 µl dist. water                               |
| Storage until expiry date | 2-8°C   |

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Polyclonal Rabbit anti-Rat CCK-A receptor

Clone no. -

MONOSAN

**Additional info**

The antiserum is raised against a synthetic peptide (SHMSTSAPPP) from the C-terminus of the rat CCK-A receptor. Suitable for labelling the receptors for the gastrointestinal hormone and neuropeptide CCK. <br>Absorption with 10-100 ug immunogen per ml diluted antiserum abolishes staining.  
Positive control: frozen sections of rat pancreas.
